Now in its second edition, *Rhetorical Criticism: Perspectives in Action* presents a thorough, accessible, and well-grounded introduction to contemporary rhetorical criticism. Systematic chapters contributed by noted experts introduce the fundamental aspects of a perspective, provide students with an example to model when writing their own criticism, and address the potentials and pitfalls of the approach. In addition to covering traditional modes of rhetorical criticism, the volume presents less commonly discussed rhetorical perspectives, exposing students to a wide cross-section of techniques.

After shaking up writing classrooms at more than 550 colleges, universities, and high schools, *Understanding Rhetoric*, the comic-style guide to writing, has returned for a third edition! *Understanding Rhetoric* encourages deep engagement with core concepts of writing and rhetoric. With brand-new coverage of fake news, sourcing the source, podcasting as publishing, and support for common writing assignments, the new edition of the one and only composition comic covers what students need to know--and does so with fun and flair.

This compelling text is a careful examination of the rhetoric of dissent. *The Rhetoric of Agitation and Control* provides a framework for the study of agitation and responses to that agitation. The third edition offers a profile of past and current movements, such as the street theatre of Chicago in 1968 and the innovative and technological rhetorical techniques found in the "Battle in Seattle." The modus operandi of today's protests continues to evolve from that of the 1960s and 1970s. As smartphones and the Internet replace tie-dyed shirts and flower power, contemporary students and scholars alike will find this edition of *The Rhetoric of Agitation and Control* to be a helpful tool in studying the progression of social and protest movements.

Help students realize their power as authors

A comprehensive and up-to-date introduction to the analysis of public rhetoric, *Modern Rhetorical Criticism* teaches readers how to examine and interpret rhetorical situations, ideas, arguments, structure, and style. The text covers a wide range of critical techniques, from cultural and dramatic analysis to feminist and Marxist approaches. A wealth of original criticism demonstrates how to analyze such diverse forms as junk mail, congressional debates, and traffic regulations, as well as literature. This long-awaited revision contains new coverage of mass media, feminist criticism, and European criticism.

The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory: I. A. Richards, Ernesto Grassi, Chaïm Perelman and Lucie Olbrechts-Tyteca, Stephen Toulmin, Richard Weaver, Kenneth Burke, Jürgen Habermas, bell hooks, Jean Baudrillard, and Michel Foucault. The brief biographical sketches locate the theorists in time and place, showing how life experiences influenced perspectives on rhetorical thought. The concise explanations of complex concepts are clear, engaging, insightful, and highly accessible, serving as an excellent primer for reading the major works of these scholars. The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context. Each chapter ends with a complete bibliography of works by the theorists.
